

SkyVac - Industrial 85 (Wet Dry)

The *SkyVac Industrial 85* is one of our hottest sellers for a reason! It's a heavy duty *gutter vac* that allows you to safely clean gutters, spouting and other hard to reach places with less hassle and better results. This clever *gutter vacuum equipment* also improves safety and reduces costs by eliminating the need for ladders and cherry pickers.

This *SkyVac* unit comes with an industrial, twin motor, wet dry vacuum that quickly eats away moss, leaves and grass that can clog gutters, making it perfect for janitorial and contract cleaning work in domestic and commercial properties. It also comes with ultra light carbon fibre poles (with 9m of reach), a CCTV inspection camera and monitor, industrial tooling and heavy duty trolley that makes moving over stairs and rough ground easy. **[Watch the demo video here](#)** ([/video-demos/skyvac-whats-all-the-fuss-about/](#)).

Part No.: VHKSVID9

Usage rating: ●●●●●
